• View current plan details
• Enroll, edit, or withdraw from auto-pay
• Consolidate your payment plan if the balance on your account increases for the term in which you are enrolled
Payment Plan Consolidation

If the balance on your account increases for a semester in which you have an active payment plan, you will be given the option to consolidate your payment plan.

• A payment plan consolidation window will appear
• A ‘plan consolidation available’ notice will be noted under the current plan on the Overview and Payment Plan screens

Consolidation options:
• If you choose to consolidate your plan, the increase will be spread out to the remaining unbilled installments.
• If you choose not to consolidate your plan, the increase will be included in the next monthly billing statement

If the balance on your account decreases for a semester in which you have an active payment plan, the payment plan budget will automatically be recalculated. The decrease will evenly reduce the remaining unbilled installments.
Making a Payment

- When making a payment, amounts due are listed separately by term.
- If a balance is owed for multiple terms, the oldest charges will be paid first, regardless of term selected.
- Checking the box next to a term will result in any additional term-related messages being presented.
